

TSC TE 244 Barcode Printer

The introduction of the new TE244 Series expands TSC Auto ID's growing line of affordable, high-performance desktop-class label printers.

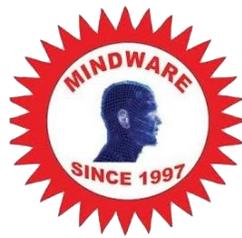

The TE244 Series provides customers throughout the world with a competitive, durable, entry-level desktop printer that is both versatile and easy-to-use.

The two available models include the TE244 which offers the industry standard 8 dots per mm (203 dpi) print resolution at an industry best 6 inches per second, and the 12 dots per mm (300 dpi) TE300 for use with printing small fonts, barcodes, or graphics. The TE244 Series offer customers a great combination of price and performance, that features a fast 400 Mhz processor, 16 MB of DRAM and 8 MB of Flash storage memory, so you never have to wait for your labels to start printing.

The TSC TE 244 is ideal for customers looking for a high quality barcode printer, coupled with low ownership costs. The TSC TE 244 is competitively priced, comes with a one year warranty off-site, and accommodates a 300-meter-long ribbon, which keeps both daily and lifetime operating costs lower than other comparable printers.

The TSC TE 244 offers the largest media and ribbon capacities in its class. Unlike most printers, it can easily handle both a 300-meter ribbon and a full 8-inch OD roll of labels. With its fast 5 inch per second print speed, along with the largest memory capacity in its class, the TSC TE 244 easily outperforms the competition.

With its small, compact footprint and dual-motor design, the TSC TE 244 is perfect for a wide variety of label and tag printing applications - everything from shipping labels to compliance and general purpose product-identification labels & tags.
